A Unique Opportunity

Small business owners can learn about

Computer Security

This NIST Computer Security Division workshop will help small businesses improve information system security.

Learn how to define information security for your organization and how to use best security practices to protect your data. Hear about threats, current technologies and free resources available to protect your business

August 7th, 2013

1350 Euclid Avenue, Lower Level Auditorium
(U.S. Bank Building) Cleveland, OH 44115

8:30 am to 1:00 pm
