Panel conversation on Community Efforts on Advanced Cryptography

Example topics for conversation (2023-July-25, **14:00–15:00$^+$** EDT):

1. Evolution across time (since $\approx$5 years ago) and differences across initiatives?

2. Usage, adoption, innovation (challenges, misunderstandings, ...)?

3. Alignment with NIST Threshold Call?

4. Privacy and auditability; need for quantum resistance?

5. Transferable lessons learned between SDOs and .org initiatives?

6. Vision/dream or one goal, about advanced cryptography?

Panelists (from previous talks): Giovanni Bartolomeo, Rosario Cammarota, Andrei Lapets, Mary Maller, Kurt Rohloff, Nick Sullivan. **Moderator (from the PEC team):** Luís Brandão. (Slide updated on 2023-July-27)
