

**Important Note for Submitters:**

As you know, NIST intends to distribute all submitted AES materials as part of the public evaluation process, including written documentation. Copyright waivers for the *implementations* are dealt with in the “2.D.3” statement. For the *other* materials, however (e.g., referenced documents that analyze the algorithm), please sign the attached copyright release with your final submission package, so that we may duplicate your submissions for public distribution (this pertains to Item #188 on the checklist). If another party holds the copyright to some of the materials, please obtain and submit a release from him/her as well. We are doing this to avoid duplicating copyrighted material without proper authorization.

**Permission and Author's Copyright Release**

I, \_\_\_\_\_ (insert name of submitter or representative of submitter) \_\_\_\_\_, do hereby grant to the National Institute of Standards and Technology (NIST) the nonexclusive right to reproduce or to have reproduced, prepare or have prepared in derivative form, and distribute or have distributed copies of

(check one)

(     ) all materials submitted to NIST in my Advanced Encryption Standard candidate nomination

-- OR --

(     ) all materials submitted to NIST in my Advanced Encryption Standard candidate nomination EXCEPT (enumerate and describe; please submit copyright waivers for these materials signed by the copyright owner or remove from submission package):
