Building Relationships,
Building Trust

Patrick Greer
Bureau of the Public Debt
U.S. Department of the Treasury
Challenges

• Build long-term relationships with a customer base that is historically ‘drive-by’ in nature
• Manage risks to the customer and to the agency
• Respect the customer’s privacy concerns
Requirements

- Paperless registration process
- High degree of certainty (the wallet test)
- Out-of-band exception processing
Reality

• Realistic risk assessment
• Technical feasibility
• Customer sensitivity
Solutions

- Use Pay.gov’s Verification Service as KBA ‘repository’
- Use internally developed identification and authorization process
Results

- 130,000+ accounts
- Very high accuracy
- Well received by customers
- Successful partnership with sister agency and private sector
