

# Participation in Recent Evaluations

## Open Machine Translation 2009: 41 teams from 36 organizations

- Air Force Research Laboratory
- Applications Technology
- BBN Technologies
- Beihang University
- Cambridge University
- Carnegie Mellon
- China Center for Information Industry Development
- Chinese Academy of Sciences
- City University of Hong Kong
- Columbia University
- Dublin City University
- Fondazione Bruno Kessler
- Fujitsu Research & Development Center
- German Research Center for Artificial Intelligence
- Harbin Institute of Technology
- IBM
- Johns Hopkins University
- KCSL
- Language Weaver
- LIMSI-CNRS
- Nanjing University
- National Research Council Canada
- National Tsing Hua University
- RWTH Aachen University
- SRI International
- SYSTRAN Software
- Sakhr Software
- Stanford University
- TUBITAK-UEKAE
- Tel Aviv University
- Universitat Politècnica de Catalunya
- University of Amsterdam
- University of Edinburgh
- University of Le Mans
- University of Maryland
- University of Southern California Information Sciences Institute

## Metrics for Machine Translation 2008: 13 teams from 13 organizations

- BabbleQuest International
- BBN Technologies
- Carnegie Mellon
- City University of Hong Kong
- Columbia University
- Harbin Institute of Technology
- National University of Singapore
- RWTH Aachen University
- Stanford University
- University of Maryland
- Universitat Politècnica de Catalunya
- University of Southern California Information Sciences Institute
- University of Washington
