

**Nabil Ghadiali**  
Vice President,  
Electrosoft Services

Nabil Ghadiali is a seasoned IT security professional with a strong background in public key infrastructure (PKI) technology, Identity Management and Certification and Accreditation with over 10 years of professional security experience. His experience also spans project and product management, sales consulting and software development.

Mr. Ghadiali has led several IT security projects for several Government Agencies including Dept of Commerce, GSA, DHS, FAA and NGA; and has authored numerous whitepapers, analysis reports and technical guidance documents. He was part of the core team at NIST that developed FIPS 201 and is a named author on SP 800-85B and SP 800-79-1.

Mr. Ghadiali was instrumental in setting up the GSA FIPS 201 Evaluation Program and continues to ensure that products and services evaluated under the program meet current HSPD-12 requirements.

Mr. Ghadiali holds a Post-Graduate diploma in Advanced Computing Tools and Techniques, and a B.S. in Mechanical Engineering
