

Adopting the Standards: An Industry Perspective.

This session is an open dialogue with organizations that will play a major role in applying cybersecurity training and professional standards to define learning objectives and curriculum for building and sustaining the national pipeline. Community colleges, training, and personnel certification providers will address the benefits and challenges of implementing nationally recognized standards. Participants will gain an understanding of how their organizations can successfully apply guidelines and standards for overall workforce enrichment activities.

- Andy Caufield, Chairman, Committee on National Security Systems, Education, Training & Awareness Working Group
- Carrie Leary, Director, Cyber Center, Anne Arundel Community College
- Luke Anderson, Global Knowledge
- Bryan Kainrath, Vice President, Products & Operations, CompTIA; Cybersecurity Credentials Collaborative
- (Facilitator) Dr. Roy Swift, American National Standards Institute
