

# FISSEA: Panel Discussion ISS LOB Tier 2 Training

VA National IT Training Academy

March 25, 2010

# Importance of ISS LOB Tier 2 Training

- Supports compliance for role-based training requirement of FISMA
- Reduces development cost per agency (build once, use many)
- Promotes consistency across federal government (baseline)
- Provides economies of scale

# Goal: A Forum for Exchange

- Identify common role-based security curriculum that is repeatable and can traverse agencies
- Resource and funding needs were substantial
- Shared infrastructure is needed

# Challenges of Providing LOB Training

- Program management requirement is substantial (administrative oversight, agreements, money transfers, etc.)
- Burden falls to the individual agencies (resources needed)
- Technology issues from lack of shared infrastructure for delivery across federal civil agencies

# Some of VA's Role Based Courses Currently Available

- Software Assurance for Software Developers
