Name of submitter: JIM HENDERSON

U.S. GOVERNMENT (USG) INSIDER THREAT DEFENSE CENTER

Organization: Washington, DC Areaa

Address: ______________________________________________________

Email Address: CyberCops911@Comcast.net

Type of Entry: Awareness Website

Title of Entry: Information Systems Security Program Management Security Awareness, Training And Education Website Portal

Description of Entry:
The Information Systems Security Program Management (ISSPM) website was developed in support of a U.S. Government (USG) Insider Threat Defense Center Information Assurance (IA), IT Security and Insider Threat Security Awareness, Training and Education Program. This website is updated frequently. It includes a wealth of Security Awareness, Training and Education materials, with links to web based training. It is hosted on the Internet on a password protected website. The ISSPM website is also currently being used by other government agencies. This development of the ISSPM website was not a task that was given to me from the USG. I saw the need for a website of this magnitude, and took the imitative to develop it on my on time.
