

The **Comments Received on DRAFT** (NIST SP 800-130) document has been approved as **FINAL** and is superseded by the following publication:

Publication Number:     **NIST Special Publication 800-130**

Title:                     **Framework for Designing Cryptographic Key  
Management Systems**

Publication Date:        **08/16/2013**

- Final Publication:  
<http://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-130.pdf>
- Information on other NIST Computer Security Division publications and programs can be found at: <http://csrc.nist.gov/>

The following information was posted on CSRC website:

August 16, 2013:

NIST announces the completion of Special Publication (SP) 800-130, A Framework for Designing Cryptographic Key Management Systems. This publication contains a description of the topics to be considered and the documentation requirements to be addressed when designing a CKMS. The CKMS designer satisfies the requirements by selecting the policies, procedures, components (hardware, software, and firmware), and devices (groups of components) to be incorporated into the CKMS, and then specifying how these items are employed to meet the requirements of this Framework.
