Human Factor Is Critical to Digital Transformation Success

By Markus Darby and Tony Rudolf

Innovations in Cybersecurity Awareness and Training:
A 360-Degree Perspective

NIST Gaithersburg, MD

Why is the Human Factor Critical to Training Success?

Important to You or Them?

YouTube?

Social Media?

Compliancy or Proficiency?

Simple Adoption?

Practical Exercises?

Retain Attention?

INFLUENCING FACTORS

What Can Go Wrong?

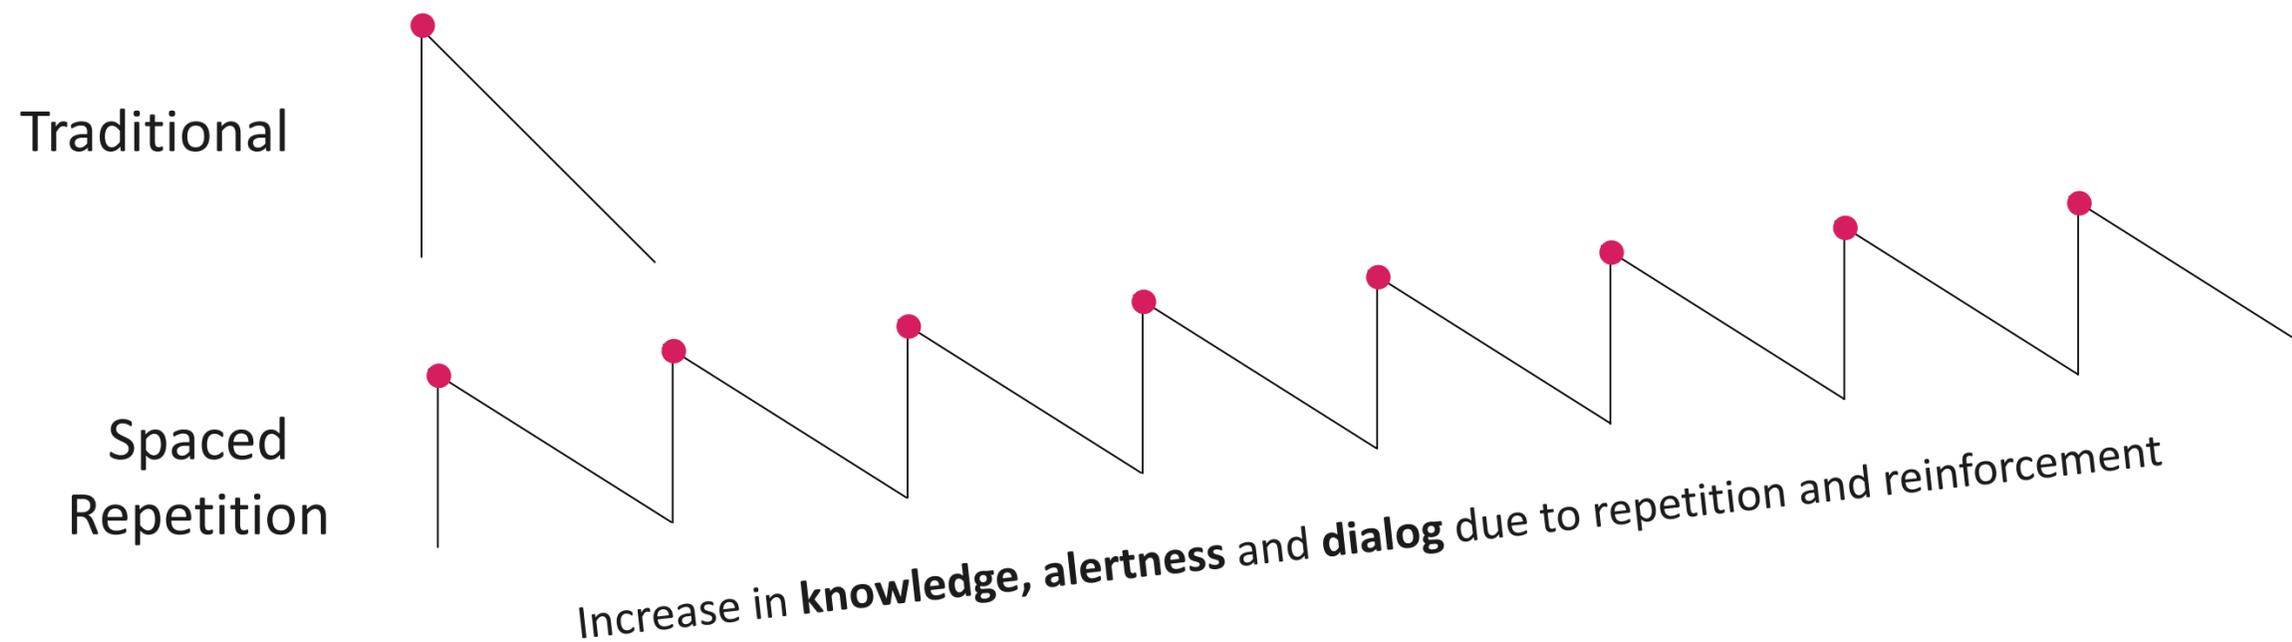

1. Ebbinghaus Effect
2. With Time, We Forget
3. How People Learn

Can We Reinforce Learning?

THE CHALLENGE

How Critical is the Human Factor to Success in Cybersecurity Awareness and Engagement Training?

Knowledge + Alertness + Dialog
Via Spaced Repetition

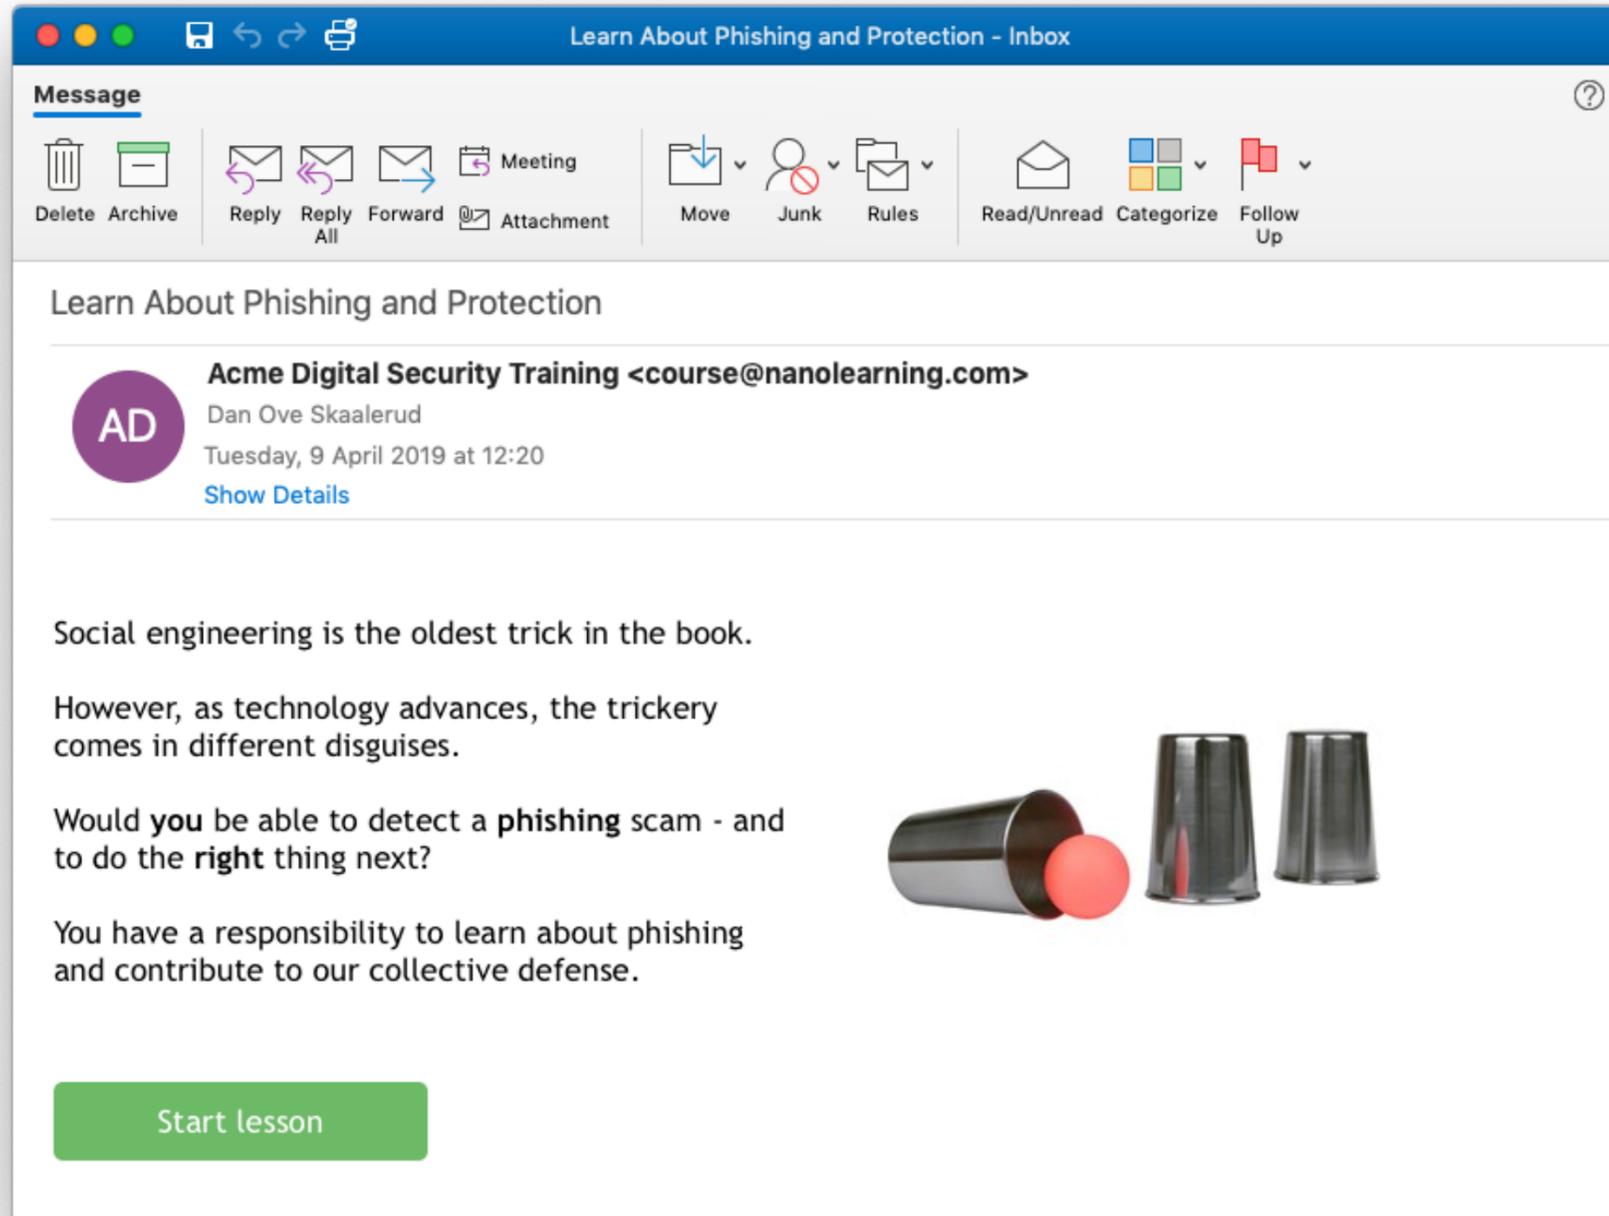

[Spaced repetition](#) is a learning technique that incorporates increasing intervals of time between subsequent review of previously learned material in order to exploit the psychological [spacing effect](#). (Wikipedia)

THE PROCESS

Cybersecurity awareness must be a continuous process, not an annual event

THE END-USER EXPERIENCE

Clean, Easy, I Can do this!

No typical 20-30 item menu

Eliminate the Extraneous

Once started, 97-99 %
completion

Any device, any operating system,
any browser

THE MANAGEMENT

Culture Shaping -

Stop

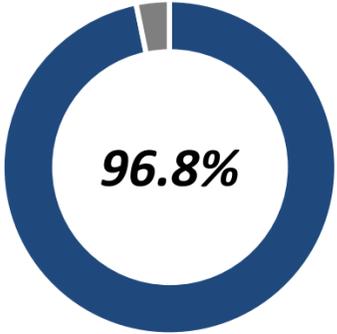

Think

Ask

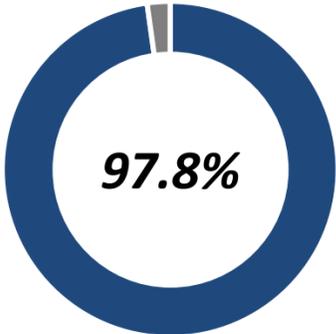

Report

Singular, Key Message for
Security Culture Dialogue

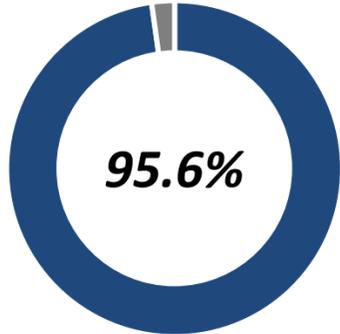

THE RESULTS

of users **said they think more about information security** in their everyday work with the program

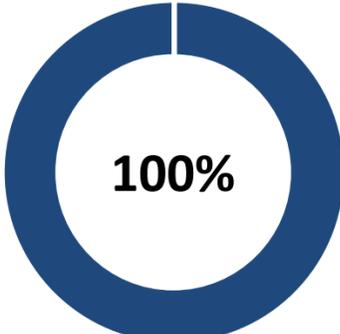

of users **liked that the lessons were short**

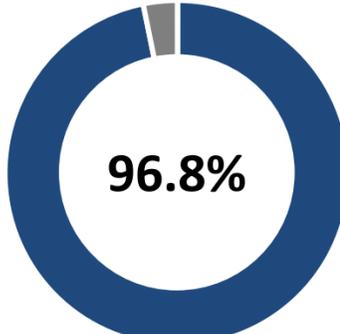

of users **liked that the lessons were delivered by e-mail**

consumable content focus drives high adoption

of users **said the content had a good level**

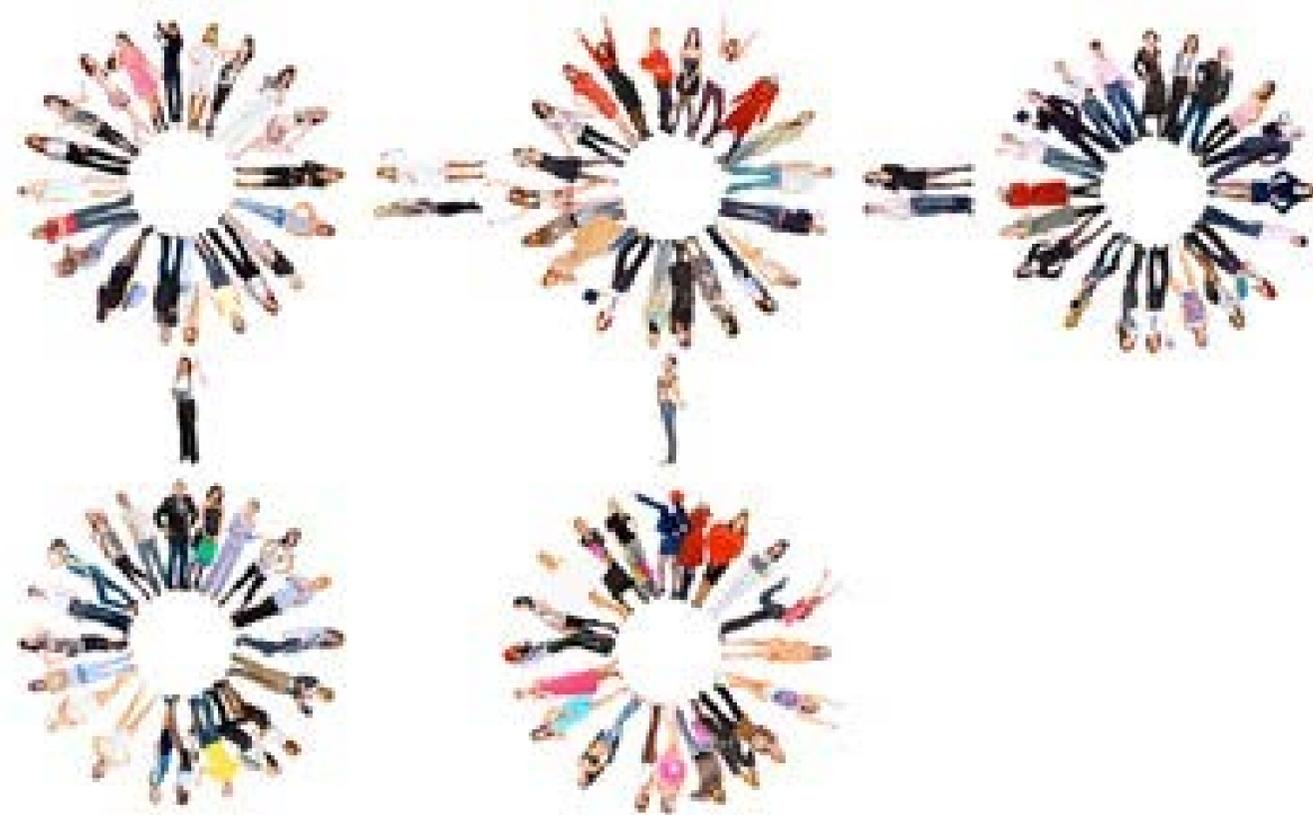

of users **would recommend the method to others**

SPECIAL OFFER

- Send Your Email Address to:
 - markus.darby@itgonline.com
- To Receive:
 - Sample Security Lessons
 - To Be Taken on Any Device

The Human Factor is critical to Digital Transformation in Cybersecurity Awareness Training

Thank You!
