Beyond Authentication: Other Physical Access Control (PACS) Infrastructure Components

Will Morrison, CPP
Chair, ISC Convergence Subcommittee
Presentation

• Introduction to the Interagency Security Committee (ISC)

• ISC White Paper: Securing Government Assets Through Combined Traditional Security and Information Technology
October 19, 1995: President Clinton Signs Executive Order 12977

AUTHORITY:

“Each executive agency and department shall cooperate and comply with the policies and recommendations of the Committee issued pursuant to this order.”

- EO 12977 § 6(b)
ISC Vision  People are safe and secure in Federal facilities throughout the country.

Mission  We safeguard US civilian facilities from all hazards by developing state-of-the-art security standards in collaboration with public and private homeland security partners.
Interagency Security Committee

• A truly interagency body exhibiting collaboration and communication between 54 Federal agencies and departments;

• Responsible for the creation and implementation of standards, guidelines, and best practices for the protection of nearly 400,000 non-military Federal facilities across the country;

• The work is based on real-world, present-day conditions/challenges; and

• Cost efficient by focusing on specific security needs of the agencies.
ISC Member Agencies (54)

PRIMARY MEMBERS (21)
1. Assistant to the President for National Security Affairs
2. Central Intelligence Agency
3. Department of Agriculture
4. Department of Commerce
5. Department of Defense
6. Department of Education

28. U.S. Army Corps of Engineers
29. U.S. Capitol Police
30. U.S. Coast Guard
31. U.S. Courts
32. U.S. Institute of Peace
33. U.S. Postal Service
Develops mechanisms to support the integration of information management controls with security programs.
Securing Government Assets through Combined Traditional Security and Information Technology

Authors: The Interagency Security Committee Convergence Subcommittee
An Interagency Security Committee White Paper
January 2015

Establishes a set of informative recommendations, seeking to assist the security and information technology communities to achieve convergence within an agency
• Physical Access Control System
  – Recommend Standards (RS) technology
    • e.g., RS-232, RS-422, RS-485
  – Internet Protocol (IP)
    Telecommunications Standards
    • Local Area Network
    • Wide Area Network
Most Common Systems Integrated with PACS

- Video Monitoring System (VMS)
- Fire Alarm System
- Intrusion Detection System (IDS)
[E]PACS Components

Enterprise Physical Access Control System
[E]PACS Components (Cont.)

- FIRE
- VMS
- IDS
- LACS
- IDMS
- ICS
- Other Sensors

Databases
SUMMATION:
Other [E]PACS Components

- Enterprise PACS for US Government
- Not your parent’s PACS
- CSO / CIO Coordination Crucial
