Federal Computer Security Managers’ Forum Meeting

August 19, 2019
NIST Gaithersburg
NIST West Square
NIST Building 101 Ground Floor Map
NIST-Guest Wireless Network

- NIST-Guest is broadcasted; Use this network to connect your device.
  1. Connect wirelessly to SSID: NIST-Guest
  2. Open your browser, as needed.
  3. If using iOS (iPhones and iPads), access a web page that does not use https:// to get to the Access and Use Policy.
  4. If using Android devices, a web page will automatically open with the Access and Use Policy.

- Review the complete Access and Use Policy by scrolling to the bottom of the Window. Acknowledge that you agree to the terms identified by selecting ACCEPT.

- Device access will be blocked if (1) it is a NIST-owned device; (2) malware or other malicious activity is detected; or (3) inappropriate online behavior is detected.

For more information, see:

# FCSM Quarterly Meeting Agenda

<table>
<thead>
<tr>
<th>Time</th>
<th>Agenda Item</th>
<th>Presenter</th>
</tr>
</thead>
<tbody>
<tr>
<td>9:00 a.m.</td>
<td>Welcome and Announcements</td>
<td><strong>Jody Jacobs</strong>, FCSM Chairperson, NIST</td>
</tr>
<tr>
<td>10:20 a.m.</td>
<td><strong>Break</strong></td>
<td></td>
</tr>
<tr>
<td>10:40 a.m.</td>
<td>FIPS 201-2, Personal Identity Verification (PIV) of Federal Employees and Contractors</td>
<td><strong>Hildegard Ferraiolo</strong>, Computer Scientist, Computer Security Division, NIST</td>
</tr>
<tr>
<td>11:30 a.m.</td>
<td>ADJOURN FORUM MEETING</td>
<td></td>
</tr>
</tbody>
</table>

The FCSM forum meeting room will be available until 2:00 p.m. for forum meeting attendees to get together and network, discuss issues among themselves, or ask FCSM/NIST staff about any issues not discussed in the forum meeting. You can bring your lunch or purchase your lunch from the cafeteria and bring it into the room for the networking session.
NIST Update

- Rescinded NIST Special Publications
- NIST FISMA Publication Schedule
- Overlay Repository
- Save the Date: FY19 Meetings, Workshops, and Conferences
On May 31, 2019 NIST rescinded NIST Special Publication 800-64 Security Considerations in the System Development Life Cycle

- Refer to NIST SP 800-160 Volume 1 for current information about system life cycle processes and systems security engineering.

- NIST intends to develop a white paper that describes how the Risk Management Framework (SP 800-37 Rev. 2) relates to system development life cycle processes and stages.
As of July 2019, NIST is currently working on updating the following publications. Unfortunately, NIST is not able to give a date when these publications will be released for initial/final public draft/final publication. The following list is in alphabetical order and does not indicate publication preference:

- NIST Special Publication 800-18 Revision 2, Guide for Developing System Security Plans
- NIST Special Publication 800-53, Revision 5 (Initial Public Draft), Security and Privacy Controls for Information Systems and Organizations
- Federal Information Processing Standard (FIPS) 199, Revision 1, Standards for Security Categorization of Federal Information and Information Systems
- Federal Information Processing Standard (FIPS) 200 Revision 1, Minimum Security Requirements for Federal Information and Information Systems

**NIST Security Control Overlay Repository (SCOR)**

- **Active NOW!**
- NISTSCOR provides stakeholders a platform for voluntarily sharing security control overlays.
- Level of detail in overlay at discretion of the organization.
- The overlay repository is organized into categories of overlays based on the submitting organization: government-wide; public (submitted by a .com, .edu, or .org); and NIST-developed.
- Government-wide category consists of submissions from federal, state, tribal, and local governments.
- Public category consists of submissions from commercial, educational, or non-profit organizations.
- NIST-developed category consists of submissions developed by NIST.

NIST Security Control Overlay Repository (SCOR) Submission Process

- Organizations sanitize overlay for public review and ensure consistency with 800-53 security controls
- Organizations complete and submit the following documents to overlays@list.nist.gov:
  - Overlay submission form
  - SCOR participation agreement (for Public organizations) or SCOR participation agreement (for Federal organizations) with management approval (digital signatures are accepted)
  - Organization Overlay in either Excel, Word or PDF format
- NIST reviews overlay for consistency with NIST standards and guidelines
- Overlay is posted on SCOR Website
- Organizations notified of posting and are responsible for letting NIST know of any updates
  - If overlay is not updated within one year of a new SP 800-53 version being published, it will be removed and/or archived.

All submissions/Questions: overlays@list.nist.gov
Upcoming Meetings, Workshops and Conferences - Save the Date!

- Ongoing: Request Input for FCSM Topics and Speakers!!!!!!!
  - Theme for 2020 2-day conference
  - Volunteer for presentation, talk about your program, innovative solution showcase!
  - Send to sec-forum@nist.gov
- Privacy Engineering Program Events at https://www.nist.gov/itl/applied-cybersecurity/privacy-engineering/events
- Next FCSM Quarterly Meeting
  - November 19, 2019 @ NIST Gaithersburg
  - February 18, 2020 @ NIST Gaithersburg
  - April 21, 2020 @ NIST Gaithersburg
- For more information: https://csrc.nist.gov/Projects/Forum
