

NIST Cybersecurity and Privacy Update

Information Security Privacy Advisory Board

Chuck Romine

Director, Information Technology Laboratory

Happy World Standards Day

14 OCTOBER 2020

Congratulations

NIST Cybersecurity Expert Donna Dodson
Receives 2020 Samuel J. Heyman Service to
America Medal in the Safety, Security and
International Affairs category.

Growing a Workforce for Managing Privacy Risk Workshop was hosted by International Association of Privacy Professionals on Sept 22-24, 2020.

GDPR Crosswalk by Enterprivacy Consulting Group
ISO/IEC 27701 Crosswalk by Microsoft

Noteworthy Releases

SP 800-53 Rev 5
Security and Privacy Controls
for Information Systems and
Organizations

Draft Workforce Framework
for Cybersecurity (NICE
Framework)

Cybersecurity Telework
Resource Page

SP 800-207
Zero Trust Architectures

Began validating cryptographic
modules to FIPS 140-3, Security
Requirements for Cryptographic
Modules.

SP 800-211
Cybersecurity Program Annual
Report

EXECUTIVE ORDERS

Executive Order on Strengthening National Resilience through Responsible Use of Positioning, Navigation, and Timing Services

— INFRASTRUCTURE & TECHNOLOGY | Issued on: February 12, 2020

<https://www.whitehouse.gov/presidential-actions/executive-order-strengthening-national-resilience-responsible-use-positioning-navigation-timing-services/>

The Executive Order directs the Department of Commerce and other agencies to work with the private sector to identify and promote responsible methods of using PNT services that appropriately manage risks.

Draft annotated outline issued on August 31, 2020.

Workshop on Sept 15-16, 2020.

Draft Profile for public comment expected mid October 2020.

Cybersecurity for Internet of Things

NISTIR 8259 Foundational
1. Cybersecurity Activities for IoT Device Manufacturers

NISTIR 8259A IoT Device
2. Cybersecurity Capability Core Baseline

Federal Profile of NISTIR 8259A
3. Catalog of IoT Device Cybersecurity Capabilities published on GitHub

Workshop on Cybersecurity Risks
4. in Consumer Home IoT Products on October 22, 2020.

Industries of the Future

QUANTUM
INFORMATION SCIENCES

5G AND ADVANCED
COMMUNICATIONS

ARTIFICIAL
INTELLIGENCE

ADVANCED
MANUFACTURING

BIOTECHNOLOGY

Post Quantum Cryptography
Round Three selections completed.

Lightweight Encryption
The Fourth Lightweight Cryptography Workshop (virtual) on October 19-21, 2020.

NIST develops vocabulary and measurements needed for technical requirements of trustworthy AI.

Bias in AI: workshop on August 18, 2020.

NISTIR 8312 Four Principles of Explainable AI, public comment Aug 17-Oct 15, 2020.

Secure AI: NISTIR 8269 Terminology and Taxonomy; Final draft expected in Fall.

Establishing metrics and benchmarks for AI hardware.

Foundational analysis of the computational capacity of a physical system.

Analysis and development of algorithms for spike-based computation.

Upcoming Symposium: U.S. Strategy for Resilient Manufacturing Ecosystems Through AI

Hosted by the National Science and Technology Council (NSTC)
Subcommittee on Advanced Manufacturing and
Subcommittee on Machine Learning and Artificial Intelligence

The Phish Scale

NIST developed a new method called the Phish Scale that could help organizations better train their employees to avoid a particularly dangerous form of cyberattack known as phishing.

Effect of Masks on Face Recognition Accuracy **NIST**

NISTIR 8311 - Face recognition accuracy with face masks using pre-COVID-19 algorithms

The next report will document accuracy values for more recent algorithms, some developed with capabilities for recognition of masked faces.

2022
***Celebrating 50 years
of Cybersecurity research at NIST***
