Preliminary Program Agenda as of November 1, 2017 Software and Supply Chain Assurance Winter Forum 2017 December 12-13, 2017, MITRE-1, 7525 Colshire Drive, McLean, VA 22102

	Tuesday, December 12, 2017	Wednesday, December 13, 2017
		OMG/CISQ
	Welcome	SAFECode: State of Software Security
9:00 AM		Steve Lipner, SAFECode
	SCRM Implementation in the US Government	,
	Facilitator: Emile Monette, DHS	NTIA Discussion on the Patchability and
	Amy Hintz, Department of Commerce	Upgradability of IoT
Ą	Willie Crenshaw, NASA	Allan Friedman, NTIA
_	Sue Farrand, Department of Energy	
	NISTI IR 8179, Criticality Analysis Process Model	
	Celia Paulsen, NIST	
	Break (10:30 -11:00 AM)	Break (10:30-11:00 AM)
	ABA Vendor Checklist	Infusing Cybersecurity into the Acquisition Process
	Lucy Thomson, Cybersecurity Legal Task Force	Shon Lyublanovits, GSA
11:00AM		
	Capability Maturity Model Integration (CMMI) Tool	Update on SEI CERT
_	Based on the Cyber Security Framework	Roberta Stempfley, SEI
	 Doug Grindstaff, CMMI Institute 	
	•	
	Lunch (12:30-1:30PM)	Lunch (12:30-1:30PM)
	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research	Lunch (12:30-1:30PM) Apprenticeships
	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings	Apprenticeships Girish Seshagiri, Ishpi Information Technologies
	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI
1	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD	Apprenticeships Girish Seshagiri, Ishpi Information Technologies
1:30	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI
1:30 PM	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI Marian Merritt, NIST Noel Kyle, DHS
1:30 PM	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation	Apprenticeships
1:30 PM	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation • Lawrence Reinert, NSA	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI Marian Merritt, NIST Noel Kyle, DHS New Automated Technical Debt Standard for Benchmarking Software Quality Improvements
1:30 PM	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation • Lawrence Reinert, NSA Intel® Transparent Supply Chain	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI Marian Merritt, NIST Noel Kyle, DHS New Automated Technical Debt Standard for Benchmarking Software Quality Improvements Dr. Bill Curtis, Consortium for IT Software Quality
1:30 PM	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation • Lawrence Reinert, NSA Intel® Transparent Supply Chain	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI Marian Merritt, NIST Noel Kyle, DHS New Automated Technical Debt Standard for Benchmarking Software Quality Improvements
1:30 PM	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation • Lawrence Reinert, NSA Intel® Transparent Supply Chain • Tom Dodson, Intel Break (3-3:30 PM)	Apprenticeships
1:30 PM	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation Lawrence Reinert, NSA Intel® Transparent Supply Chain Tom Dodson, Intel Break (3-3:30 PM) Juniper SCRM Best Practices Case Study	Apprenticeships
1:30 PM	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation • Lawrence Reinert, NSA Intel® Transparent Supply Chain • Tom Dodson, Intel Break (3-3:30 PM)	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI Marian Merritt, NIST Noel Kyle, DHS New Automated Technical Debt Standard for Benchmarking Software Quality Improvements Dr. Bill Curtis, Consortium for IT Software Quality (CISQ) Break (3-3:30 PM) Integrating Safety with Security in the Industrial IoT
_	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation Lawrence Reinert, NSA Intel® Transparent Supply Chain Tom Dodson, Intel Break (3-3:30 PM) Juniper SCRM Best Practices Case Study	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI Marian Merritt, NIST Noel Kyle, DHS New Automated Technical Debt Standard for Benchmarking Software Quality Improvements Dr. Bill Curtis, Consortium for IT Software Quality (CISQ) Break (3-3:30 PM) Integrating Safety with Security in the Industrial IoT Ecosystem Bob Martin, MITRE
_	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation • Lawrence Reinert, NSA Intel® Transparent Supply Chain • Tom Dodson, Intel Break (3-3:30 PM) Juniper SCRM Best Practices Case Study • Danielle Zeedick, Juniper	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI Marian Merritt, NIST Noel Kyle, DHS New Automated Technical Debt Standard for Benchmarking Software Quality Improvements Dr. Bill Curtis, Consortium for IT Software Quality (CISQ) Break (3-3:30 PM) Integrating Safety with Security in the Industrial IoT Ecosystem Bob Martin, MITRE CISQ Leadership and SSCA Way Ahead
1:30 PM 3:30 PM	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings • Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation • Lawrence Reinert, NSA Intel® Transparent Supply Chain • Tom Dodson, Intel Break (3-3:30 PM) Juniper SCRM Best Practices Case Study • Danielle Zeedick, Juniper Lessons Learned from Independent Engagements of	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI Marian Merritt, NIST Noel Kyle, DHS New Automated Technical Debt Standard for Benchmarking Software Quality Improvements Dr. Bill Curtis, Consortium for IT Software Quality (CISQ) Break (3-3:30 PM) Integrating Safety with Security in the Industrial IoT Ecosystem Bob Martin, MITRE CISQ Leadership and SSCA Way Ahead Dr. Bill Curtis, Consortium for IT Software Quality
_	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation Lawrence Reinert, NSA Intel® Transparent Supply Chain Tom Dodson, Intel Break (3-3:30 PM) Juniper SCRM Best Practices Case Study Danielle Zeedick, Juniper Lessons Learned from Independent Engagements of Small and Medium Size Organizations	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI Marian Merritt, NIST Noel Kyle, DHS New Automated Technical Debt Standard for Benchmarking Software Quality Improvements Tr. Bill Curtis, Consortium for IT Software Quality (CISQ) Break (3-3:30 PM) Integrating Safety with Security in the Industrial IoT Ecosystem Bob Martin, MITRE CISQ Leadership and SSCA Way Ahead Dr. Bill Curtis, Consortium for IT Software Quality (CISQ)
_	Lunch (12:30-1:30PM) NIST-GSA-UMD Predictive Analytics Model Research Findings Dr. Sandy Boyson, UMD Trusted Computing Supply Chain Validation Lawrence Reinert, NSA Intel® Transparent Supply Chain Tom Dodson, Intel Break (3-3:30 PM) Juniper SCRM Best Practices Case Study Danielle Zeedick, Juniper Lessons Learned from Independent Engagements of Small and Medium Size Organizations Carter Schoenberg, Hemisphere Cyber Risk	Apprenticeships Girish Seshagiri, Ishpi Information Technologies Carol Woody, SEI Marian Merritt, NIST Noel Kyle, DHS New Automated Technical Debt Standard for Benchmarking Software Quality Improvements Dr. Bill Curtis, Consortium for IT Software Quality (CISQ) Break (3-3:30 PM) Integrating Safety with Security in the Industrial IoT Ecosystem Bob Martin, MITRE CISQ Leadership and SSCA Way Ahead Dr. Bill Curtis, Consortium for IT Software Quality
