

NIST STPPA #4: Special Topics on Privacy and Public Auditability (Event 4)

Panel PEC for privacy and public auditability

Example topics for conversation (2022-Nov-21, 11:40–12:30 EST):

- ▶ Are there “privacy with public auditability” use-cases being hindered by lack of standardization?
- ▶ Readiness for adoption: feasible today? common (Mis)understandings?
- ▶ PQC vs. urgency of applications yet-without PQC solutions
- ▶ Stakeholders: who and how to reach them?
- ▶ What is the vision/dream (3 years, 10 years, 30 years)?

Panelists: Foteini Baldimtsi (George Mason University). Julian Loss (CISPA, Germany) Anna Lysyanskaya (Brown University, Germany), **Moderators** (NIST-PEC team): Luís Brandão, René Peralta, Angela Robinson
