

Dear all,

Please find below all the information to connect to the “NIST PQC Seminars”. **Be careful, the connection information in this document might change for the next talks, so always make sure to use the most recent pdf available at**

<https://csrc.nist.gov/projects/post-quantum-cryptography/workshops-and-timeline/pqc-seminars>.

These events will be hosted by NIST through BlueJeans. The most common way to connect is to use your **web browser** and use the link in **section 1) a) below**.

If you want to use the BlueJeans software, you have to make sure to download the “Events” version and not the regular one which is by default for “Meetings”.

Some indications and screenshots are on the next page of this document to help you.

However, we do not recommend this option.

Sincerely,

Dr. Maxime Bros
NIST PQC Team
