The attached document "modifications for round 4" specifies the Classic McEliece tweaks for round 4. We will provide updated documentation and software matching this.

I believe the last word should be "detection".

Hi Mike,

You are right. Thank you for pointing this out.

Thanks Tanja (and team),

When do you think you can send us the updated specs and software?

Dustin

Thanks for this, Dan.

Obviously I've just had a quick glance, and will read in detail in the fullness of time, but I just want to say that I love the restructuring of the supporting documentation and the separation of content into the different documents for different purposes, and the rewriting and clarification of the content that I've seen already. It looks really great.

Best,

Wrenna
