Overview of the CUI Program

Why is the CUI Program necessary?

Executive departments and agencies apply their own ad-hoc policies and markings to unclassified information that requires safeguarding or dissemination controls, resulting in:

An inefficient patchwork system with more than 100 different policies and markings across the executive branch

Inconsistent marking and safeguarding of documents

Unclear or unnecessarily restrictive dissemination policies

Impediments to authorized information sharing

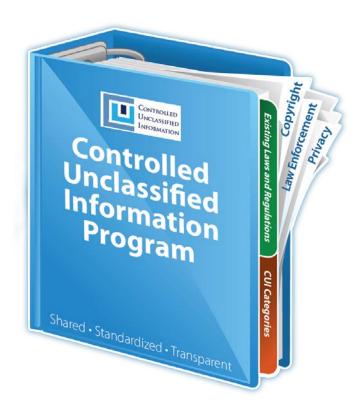

What are the benefits of the CUI Program?

One uniform, shared, and transparent system for safeguarding and disseminating CUI that:

Establishes common understanding of CUI control

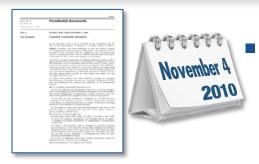

Promotes information sharing

Reinforces existing legislation and regulations Clarifies
difference
between CUI
controls and
FOIA
exemptions

Executive Order 13556

Established CUI Program

 Executive Agent (EA) to implement the E.O. and oversee department and agency actions to ensure compliance

 An open and uniform program to manage all unclassified information within the executive branch that requires safeguarding and dissemination controls as required by law, regulation, and Government-wide policy

CUI Executive Agent Current Efforts

Maintain Registry

- Approve additional CUI categories and subcategories based on agency submissions
- Provide guidance on provisional approval process for new CUI categories

Finalize CUI Policy

- Complete draft through informal process
- Submit through formal OMB comment process
- Publish in CFR
- National Implementation Plan (NIP)
 - With agencies, create and execute implementation planning framework, including deadlines for phased implementation

Five Programmatic Areas of Implementation Plan

Governance

The CUI Executive Agent in consultation with affected agencies manages the implementation and sustainment of the CUI Program

Policy and Guidance

CUI is safeguarded, disseminated, marked and decontrolled consistent with Executive Order 13556 and implementation guidance

Training

Affected personnel receive baseline training that incorporates the essentials of the CUI program and specific agency needs

Technology

The security and criticality of CUI are protected by the standards and guidelines established for Federal information systems

The CUI Executive Agent and all affected agencies are accountable for improvement of the CUI program through management and oversight responsibilities

Information Technology Considerations

- "This order shall be implemented in a manner consistent with...applicable Government-wide standards and guidelines issued by the National Institute of Standards and Technology, and applicable policies established by the Office of Management and Budget", Section 6(a)3, Executive Order 13556.
- Future CUI guidance where it addresses IT questions, must be aligned to Federal level policies.
- ISOO and NIST developed a strong partnership.

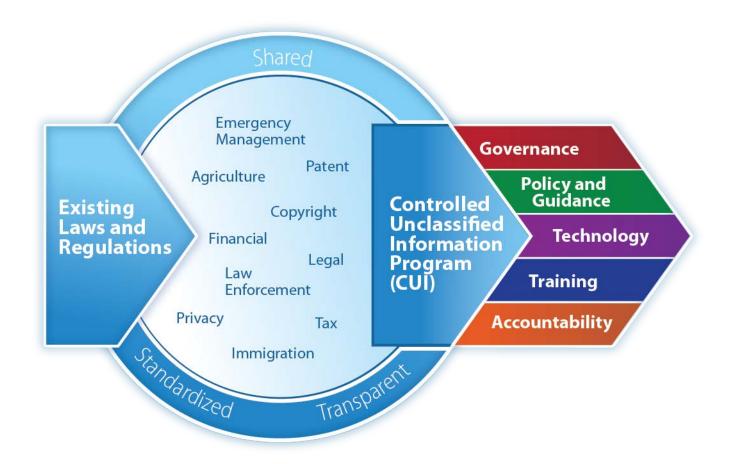

Information Technology Considerations

- "In accordance with Federal Information Processing Standards (FIPS) Publication 199, the Confidentiality impact level for CUI shall be no lower than the Moderate level" (Draft CUI Directive)
- CUI categories and subcategories will be incorporated as information types into the next revision of the NIST Special Publication 800-60, where the work of the CUI Executive Agent will be integrated
